

15 May 2018

Dear Parents/Caregivers,

**Mathematics and R.E Parent Partnership Evening - Tuesday 22 May 2018**

One of the most valuable connections we can make at school for our learners are the partnerships that are formed between home and school. At St Mary's, our faith and learning are at the heart of everything that we do. Therefore, we would like to invite you to a Parent Partnership Evening on **Tuesday 22 May from 6:30pm-8:00pm** to participate in some new learning around the new Religious Education bridging document, presented by Margaret Fitzpatrick (R.E Advisor) and to gain a deeper insight into the Mathematics strategies that your child/ren are using at school every day, so that you can further support at home.

This will be an interactive evening where you will be able to learn about the Mathematics strategies that we use at school and then to put them into practise with some practical examples. We will also provide some takeaway ideas and documents that you can then use at home with your child/ren in order to continue their learning at school at home.

The Religious Education segment of the evening will be presented by one of the Auckland Catholic School R.E. advisors, Margaret Fitzpatrick. She will speak to the community about the new national curriculum. She will explain some of the changes that are being introduced and about how the curriculum will be taught in our schools going forward, and how this will change the way in which we will report to parents.

Please indicate below if you will be attending this evening and return to your child's classroom teacher.

Yours sincerely,

Claire Hart  
Deputy Principal

Rachael Hill  
Director of Religious Studies
